## art

/ɑ:t/  
noun / plural noun: arts

1. the expression or application of human creative skill and imagination

Good Youth Work? It's not a **pigment** of your imagination.

**We are all artists**, and in 2017 we will work together, sharing our creative skill and imagination, to **design** better outcomes for local young people.

This event is your chance to **draw** on your strengths

To **paint** the picture of what we want youth services to work towards

To **sculpt** some partnerships with local youth services

To **canvas** for others who are passionate about the same things as you.

And of course, there'll be great food for the **palette** so we can **create** tasteful outcomes
